

Application Tips

Buy to Let – Portfolio Landlords

Since the adoption of our specialist underwriting approach for BTL Portfolio Landlords in September, we have been monitoring applications received.

By following these application tips, you will help us to reduce the number of queries raised and speed up the application assessment process.

Property Schedule Form

Our own form is required for all cases, either fully complete the editable version or handwrite. Ensure the form is either signed or type names into signature boxes

REMEMBER - We don't need separate business plans or cash flow forecasts

Remember you do not need to send the **AST** for the subject property

Commitments
Disclose **all** residential and BTL mortgages

We **credit search** all cases so ensure **all** unsecured debts are disclosed

Remortgage Applications

Don't include rent from the subject property in total rental income as it is already accounted for

The Portfolio Property Schedule Form is available within our Buy to Let 'Useful Documents' section: <https://intermediaries.uk.barclays/useful-documents>
